

MASTER OF TALL BUILDINGS AND VERTICAL URBANISM

The post-professional Master of Tall Buildings and Vertical Urbanism (MTBVU), an academic degree, offered by the College of Architecture is intended for students with professional degrees in architecture who seek to develop a better understanding of the theories, methods, and technologies necessary to achieve high performance, energy efficient, healthy, and sustainable high rise buildings.

Admission Requirements

The program is open to applicants holding an accredited professional degree in architecture, urban design, or allied field. Applicants with a degree earned outside the U.S. must have the equivalent to a first professional degree and be eligible for licensure in their home country.
