

CERTIFICATE IN FINANCIAL TECHNOLOGY

The Certificate in Financial Technology provides an overview of asset valuation, high frequency finance and technology, and global financial markets and technology.

This program provides students with a post-baccalaureate knowledge of this area within the finance discipline. Students in the program register as certificate students. Students who are admitted to a master's degree program may apply coursework previously taken in a certificate program toward the requirements for the master's degree.

This certificate is designed for professionals who seek to increase their knowledge and skills in this area of finance, as well as earn stackable credentials as part of a degree program.
