

# CERTIFICATE IN PORTFOLIO MANAGEMENT

---

The Certificate in Portfolio Management covers asset valuation, quantitative portfolio management, and fixed income portfolio management.

This certificate program is quantitative. It is part of several certificate programs that are offered in a number of disciplines taught at the Stuart School of Business. These programs provide students with a post-baccalaureate knowledge of an area of specialization within the discipline. Students in these programs register as certificate students. Students who are admitted to a master's degree program may apply coursework previously taken in a certificate program toward the requirements for the master's degree.

This certificate is designed for professionals who seek to increase their knowledge and skills in a particular area, as well as earn stackable credentials as part of a degree program.
