

MASTER OF TELECOMMUNICATIONS AND SOFTWARE ENGINEERING

Collaborative program with the Department of Computer Science

The Master of Telecommunications and Software Engineering (M.T.S.E.) is a course-only degree program that prepares students for professional practice in telecommunications and information technologies. The program is offered by the Department of Electrical and Computer Engineering (ECE) and can be completed in one year of full-time study. The M.T.S.E. is a professional master's degree requiring a minimum of 30 credit hours of adviser-approved coursework.

Admission requirements for this degree follow the existing admission requirements for master's degrees in the ECE

department. A person holding a B.S.E.E., a B.S.C.P.E., or a B.S.C.S. degree has the necessary broad background to undertake the M.T.S.E. program. A student without adequate background in specific areas is required to demonstrate proficiency in prerequisite courses; an abbreviated course list is given below.

Specific proficiency courses will be detailed for each student at the time of admission to the M.T.S.E. program. A student may demonstrate proficiency by successfully completing the courses or by demonstrating satisfactory performance in one or more special examinations administered by the department.

Curriculum

Master of Telecommunications and Software Engineering, Computer Engineering Concentration

| Requirement | Credits |
|---------------------------|---------|
| Minimum Credits Required | 30 |
| Maximum 400-Level Credit | 12 |
| Minimum 500-Level Credit | 18 |
| Minimum ECE Coursework | 15 |
| Minimum CS Coursework | 12 |
| Maximum ECE Short Courses | 4 |
| Maximum Transfer Credit | 9 |

| Code | Title | Credit Hours |
|--|---|--------------|
| Core Courses | | (15) |
| ECE 510 or ECE 503 | Internet of Things and Cyber Physical Systems 5G Wireless Network: Architecture, New Radio, and Security | 3 |
| ECE 513 or ECE 504 | Communication Engineering Fundamentals Wireless Communication System Design | 3 |
| CS 586 or CS 587 | Software Systems Architectures Software Project Management | 3 |
| ECE 541 or ECE 543 | Communications Networks Performance Analysis Computer Network Security | 3 |
| ECE 545 or ECE 408 | Modern Internet Technologies Introduction to Computer Networks | 3 |
| Software Engineering | | (3) |
| Select a minimum of one course from the following: | | 3 |
| CS 521 | Object-Oriented Analysis and Design | 3 |
| CS 537 | Software Metrics | 3 |
| CS 589 | Software Testing and Analysis | 3 |
| ECE 448 or ECE 528 | Application Software Design Application Software Design | 3 |
| ECE 449 or ECE 590 | Object-Oriented Programming and Machine Learning Object-Oriented Programming and Machine Learning | 3 |
| Telecommunication Systems | | (3-4) |
| Select a minimum of one course from the following: | | 3-4 |
| CS 555 | Analytic Models and Simulation of Computer Systems | 3 |
| ECE 407 or ECE 408 | Introduction to Computer Networks with Laboratory Introduction to Computer Networks | 4 |

2 Master of Telecommunications and Software Engineering

| | | |
|---|---|------------|
| ECE 443 or ECE 518 | Introduction to Computer Cyber Security Computer Cyber Security | 3 |
| ECE 510 | Internet of Things and Cyber Physical Systems | 3 |
| ECE 517 | Modern Wireless Network Protocols and Standards | 3 |
| ECE 542 | Design and Optimization of Computer Networks | 3 |
| ECE 543 | Computer Network Security | 3 |
| ECE 544 | Wireless and Mobile Networks | 3 |
| ECE 545 | Modern Internet Technologies | 3 |
| ECE 546 | Wireless Network Security | 3 |
| ECE 547 | | 3 |
| Communications | | (3) |
| Select a minimum of one course from the following: | | 3 |
| ECE 503 | 5G Wireless Network: Architecture, New Radio, and Security | 3 |
| ECE 504 or ECE 406 | Wireless Communication System Design Wireless Communications Systems | 3 |
| ECE 508 | Video Communications | 3 |
| ECE 513 | Communication Engineering Fundamentals | 3 |
| ECE 514 | Digital Communication Principles | 3 |
| ECE 515 | Modern Digital Communications | 3 |
| ECE 519 | Coding for Reliable Communications | 3 |
| ECE 520 | Information Theory and Applications | 3 |
| Elective Courses | | (6) |
| Select the remaining credit hours of coursework from the courses listed above or other courses approved by the faculty adviser ¹ | | 6 |

¹ Students without a background in communications or software engineering would be best prepared by including: CS 450, CS 455, CS 487, ECE 403, ECE 405, ECE 406.

Other recommended courses include:

| Code | Title | Credit Hours |
|---------|---|--------------|
| CS 588 | Advanced Software Engineering Development | 3 |
| ECE 436 | Digital Signal Processing I with Laboratory | 4 |
| ECE 437 | Digital Signal Processing I | 3 |
| ECE 511 | Analysis of Random Signals | 3 |
| ECE 516 | Coding for Distributed Storage Systems | 3 |
| ECE 520 | Information Theory and Applications | 3 |
| ECE 565 | Computer Vision and Image Processing | 3 |
| ECE 568 | Digital Speech Processing | 3 |
| ECE 569 | Digital Signal Processing II | 3 |
| ECE 584 | VLSI Architecture for Signal Processing and Communication Systems | 3 |
