<td>LA 501</td>
<td>History, Theory, and Criticism I: Landscape Architecture Theory</td>
<td>Inquiry of natural factors and ecology (soil formations, geological features, hydrological patterns, catastrophic events, etc.) in the settlement and development of cities. The work of the seminar will include an inventory of these factors in selected global cities, including Chicago, and their influence on urban design and site-specific landscape architecture projects.</td>

<tr>
<td>LA 502</td>
<td>History, Theory, and Criticism II: Landscape Architectural History</td>
<td>The chronological history of designed landscapes with an emphasis on the emergence of the profession of landscape architecture in North America in the nineteenth and twentieth centuries.</td>
<td>3</td>
<td>0</td>
<td>3</td>
</tr>
<tr>
<td>LA 503</td>
<td>History, Theory, and Criticism IV: Advanced Contemporary Theory -- Case Studies</td>
<td>Twentieth century and contemporary landscape architecture is investigated through case studies including site visits to projects in the Chicago region.</td>
<td>3</td>
<td>0</td>
<td>3</td>
</tr>
<tr>
<td>LA 504</td>
<td>History, Theory, and Criticism III: Landscape Architecture Research Seminar</td>
<td>Advanced study of landscape architecture topics with emphasis on research methods, description, analysis, and criticism.</td>
<td>3</td>
<td>0</td>
<td>3</td>
</tr>
<tr>
<td>LA 514</td>
<td>Professional Practice of Landscape Architecture I: Entrepreneurship and Practice</td>
<td>Develop expertise in professional practice. Lectures, research assignments, and case studies will investigate practice models, proposals and contracts, schedules and budgets, project phases, project and client types, project team structure, the role of competitions, professional development, and licensure. In addition, the role of landscape architects, urban planners, real estate trusts, government agencies, developers, and others in directing the economic, professional, political, and socio-cultural concerns and responsibilities to initiate and manage landscapes will be investigated.</td>

<td>6</td>
</tr>
<tr>
<td>LA 516</td>
<td>Professional Practice of Landscape Architecture II: Landscape Architecture and Time</td>
<td>Investigations of gardens, landscapes, infrastructure, and cities as they are conceived, mature, and change over time. Study of landscapes designed for successional processes, weathering, biological growth and decay, seasonality, preservation and conservation of historic landscapes, and other topics.</td>
<td>3</td>

<td>3</td>
</tr>
<tr>
<td>LA 525</td>
<td>Design Media I: Drawing and Modeling the Landscape</td>
<td>Drawings (manual and digital) and models (physical and digital) will be employed to explore and interrogate landscape processes and envision ideas particular to landscape architecture such as mapping, time, movement, line, contour, texture, and materials, among others, while also developing a mastery of drawing conventions and media.</td>
<td>3</td>
<td>0</td>
<td>3</td>
</tr>
<tr>
<td>LA 526</td>
<td>Design Media II: Digital Media</td>
<td>Using digital tools to clarify, conceptualize, represent, and communicate designed and engineered environments. A fluidity between critical, visual, and quantifiable digital techniques will be cultivated and will ground the management of information across software platforms.</td>
<td>3</td>
<td>0</td>
<td>3</td>
</tr>
<tr>
<td>LA 527</td>
<td>Design Media III: Advanced Modeling and Fabrication-Dynamic Processes</td>
<td>Investigate advanced digital fabrication and modeling techniques necessary to understand complex three-dimensional surfaces, objects, and space, as well as dynamic landscape and urban processes. Modeling, rendering, scripting, and animation skills are used to conduct, generate, and communicate research.</td>
<td>3</td>
<td>0</td>
<td>3</td>
</tr>
<tr>
<td>LA 541</td>
<td>Landscape Architecture Studio I: Processes</td>
<td>Understanding the fundamental relationships of dynamic processes with an emphasis on representing time, movement, space, light, rhythms, shifting boundaries and enclosures, and physical materials of landscape.</td>
<td>0</td>
<td>12</td>
<td>6</td>
</tr>
<tr>
<td>LA 542</td>
<td>Landscape Architecture Studio II: Site and City</td>
<td>Continued development of the core tools of the discipline of landscape architecture focusing on the 21st century city. Rigorous site analysis will include emphasis on material, cultural, and ecological expression of city-scale networks and flows at the site scale. Design investigations will explore the site itself, its adjacent conditions, and the larger neighborhood or civic milieu.</td>

</table>
LA 543
Landscape Architecture Studio III: Comprehensive Landscape Architecture
The integration of local ecologies, projected use, and the performance of ephemeral, semi-permanent, and permanent site interventions into cohesive and resilient design proposals for varied urban sites. Introduction to a wide range of site-specific professional design standards including the Americans with Disabilities Act and barrier-free regulations.
Prerequisite(s): LA 542 with min. grade of C
Lecture: 0 Lab: 12 Credits: 6

LA 544
Landscape Architecture Studio IV: Site, City, and Region
Development of landscape architecture as a multi-scalar framework for designing dynamic urban processes and sites. Emphasis on research and design strategies that focus on the region as an analytical lens for site-specific design.
Prerequisite(s): LA 541 with min. grade of C or LA 543 with min. grade of C
Lecture: 0 Lab: 12 Credits: 6

LA 545
Landscape Architecture Studio V: Metropolis
The cloud studio is a research-based design studio focused on investigating the complex forces that shape the built environment and proposing new strategies for urban development. The aim of the studio is to build a commentary and transformative agenda for site-specific design.
Prerequisite(s): LA 544 with min. grade of C
Lecture: 0 Lab: 12 Credits: 6

LA 546
Landscape Architecture Studio VI: Metropolis
The design-based research studio is a continuation of the LA 545 research-based design studio. It is focused on the development of the specific proposals based on the critical findings of LA 545. The aim of the studio is to develop formal solutions which address the complexities of modern metropolis and advance disciplinary knowledge at large. The studio production is oriented toward the development of projects in a variety of scales from large-scale master plans, urban designs, and landscape designs to new urban typologies and singular buildings, all of which can address a variety of the issues pertinent to the modern metropolis. The studios are formed in few thematic clusters which complement each other or serve as dialectical opposites. Each studio explores variety of techniques from parametric design, digital fabrication, model making, and advanced geospatial software to cultural and theoretical discourses. Vertical studio integrating advanced BArch, MArch, MLA, MS, and PhD students. Students will be able to select from varied studio topics.
